Company Number: 09560274

Convert your car into a camper van in less than 5 minutes.

Simple Camper Vans produce removable, folding camper van conversion modules for Citroen Berlingo, Fiat Doblo, Peugeot Partner, Peugeot Rifter, Renault Kangoo, Vauxhall Combo and VW Caddy passenger vehicles with rear seats fitted.

Lightweight and affordable, our camper van conversion modules are precision CNC machined from high quality 12mm birch plywood panels with redwood timber supports and a Fiamma pop-up table system.

All Simple camper van conversion modules are supplied fully assembled, with no vehicle modifications or fixings required and an installation time of less than 5 minutes. Simply lift the module out of the packaging and straight into the boot of your vehicle and you're ready to go!

Our conversion modules are designed to integrate with your vehicle, meaning that you do not need to remove the rear seats to install and use the module. For everyday use the module neatly folds into the boot of your vehicle so that you can continue using all 5 seats to carry passengers as normal. Additionally, our skeleton design means that with the module folded into the boot of your vehicle, there is still plenty of boot storage space underneath the module.

Got a question or want to find out more about Simple camper van conversion modules? You can find further information on our website including a detailed Frequently Asked Questions (FAQs) section. We also welcome telephone or email enquiries from customers interested in discussing our products further.

Read what our customers say about our products.

I just wanted to pass on my thanks for an extremely high quality, well made product. My wife and I are delighted with it and it has exceeded our expectations in terms of ease of use and practicality, turning our car into a truly multi-purpose vehicle. Great product and fantastic value for money! Thank you so much!

06 Vehicle compatibility.

Simple camper van conversion modules are available for the vehicles listed here and are designed to work with passenger vehicles fitted with rear seats. 7 seater variants must have the boot seats removed prior to installation of the module.
