Turn your car into a camper van in less than 5 minutes.

Simple Camper Vans produce removable, folding camper van conversion modules for Citroen Berlingo & Nemo, Fiat Doblo & Qubo, Ford Tourneo, Mercedes Citan, Peugeot Bipper & Partner & Rifter, Renault Kangoo, Vauxhall Combo and VW Caddy passenger vehicles with rear seats fitted.

Lightweight and affordable, our camper van conversion modules are precision CNC machined from high quality 12mm birch plywood panels and include a Fiamma pop-up table system. The module can be easily unfolded in seconds to create a completely flat bed platform for sleeping or a comfortable seating area for relaxation or mobile office work. You don't need to remove the rear seats to install and use the module and when you're not using it, the module folds into the boot so that you can use the rear seats to carry passengers as normal.

All our camper van conversion modules are pre-built and in stock for immediate shipping with next day delivery and nominated day delivery options available for most UK postcodes. We also offer fast delivery to most European addresses. Our camper van conversion modules are supplied fully assembled, with no vehicle modifications or fixings required and a tool-free installation time of less than 5 minutes. All you need to do is lift the module out of the packaging and straight into the boot of your car and you're ready to start your journey!

04 Gallery.

5 star review rated.

Since we started production in 2015, there are now over 2500 Simple camper van conversion modules in use across the UK and Europe. We offer high quality products and exceptional customer service and we are 5 star rated on Google based on reviews from our customers.

Outstanding service and product! Super helpful, informative and friendly. Well made, simple yet completely transformative. Affordable solution from a brilliant company. Chuffed to bits!

06 Vehicle compatibility.

Simple camper van conversion modules are available for the vehicles listed here and are designed to work with passenger vehicles fitted with rear seats. 7 seater variants must have the boot seats removed prior to installation of the module.
